

RISK ASSESSMENT

Service:	Hands on Heritage
Site:	Tunstall Forest

Risk Title / Activity:	Wildlife-Risk of Infection and Disease	RA Ref No.	HoH 006
-------------------------------	--	-------------------	---------

Work Areas	Identified Hazards				Who is at Risk	
Site and surrounding forest	Fire/Heat		Dust/Fumes		Volunteers	x
	Explosion		Asphyxiation		Authorised site visitors	x
	Fall (Slip/Trips)		Visibility		Course Participants	x
	Cuts/Trapping		Temperature(hot/cold)		Accompanying Supervisors	x
	Crushing/shearing		Weather		General Public	x
	Struck by object		Vibrations			
	Manual Handling		Stress			
	Entrapment		Ergonomics			
	Chemical	x	Air pollution			
	Biological	x	Land Contamination	x		
	Radiation		Water Contamination	x		
	Electrical Shock		Legal & Compliance			
	Noise		Poisoning (ingestion)			
			Weils/Lymes disease	x		
Equipment used	Control Measures					
n/a	Brief staff and students about risks from ticks and proximity to rats Emphasise need for hygiene Encourage the wearing of light coloured clothing and long trousers tucked into socks Encourage participants to self check for ticks and remove with Meths or Surgical Spirit if necessary Emphasise need to consult Doctor should participant feel unwell 24 hours following event					

Risk Class Management Tool:

Severity		Likelihood				
Severe	(5)	Moderate	High	High	Extreme	Extreme
Major	(4)	Moderate	Moderate	High	Extreme	Extreme
Moderate	(3)	Low	Moderate	Moderate	High	High
Minor	(2)	Low	Moderate	Moderate	Moderate	High
Insignificant	(1)	Low	Low	Low	Moderate	Moderate
		Rare (1)	Unlikely (2)	Possible (3)	Likely (4)	Almost Certain (5)

Risk Class	Score	Action Required	Reporting requirements	Accountability
Class 1 (Extreme)	16 – 25	Immediate detailed plan, Staff specifically trained in the hazard mitigation and emergency response	Report to Site Manager & Trustees	Trustees & Site Manager
Class 2 (High)	10 – 15	24 Hrs Mitigation required, Staff informed and Trained	Report to Site Manager	Site Manager
Class 3 (Moderate)	4 – 9	Site Manager Implement additional measures and manage routinely	Recorded on site Risk Register	Site Manager
Class 4 (Low)	1 – 3	Manage routinely	Recorded on site Risk Register.	Site Manager

Risk Assessment Rating:

		Range	Score (L x S)	Class Rating
Initial Risk (Before control Measures)	Severity (S)	5	15	2
	Likelihood (L)	3		
Residual Risk (After Control Measures)	Severity (S)	3	9	3
	Likelihood (L)	3		

Date of Assessment	6 th September 2016	Signature	Andrew Crisp
Date of Assessment Review			
Name of Assessor	Andrew Crisp	Position	Chairman HoH CIO
